In order to purchase Florinef 0.1mg from PETPHARM I, _____,
the owner of _____ acknowledge and agree to the following:

1. PETPHARM will ship Florinef with ice packs to maintain the temperature within the manufacturer's recommended range for storage of 2° - 8° C (36° - 46° F) (the "Recommended Range"); however, the ice packs are usually good for only 72 hours. Due to circumstances beyond PETPHARM's control, such as postal or customs delays, the ice packs may be insufficient to maintain the temperature within the Recommended Range until the package arrives.
2. I will accept the Florinef even if it is delivered in a parcel with the temperature either above or below the Recommended Range.
3. I acknowledge that PETPHARM assumes no responsibility for the state of Florinef upon delivery and that the product cannot be returned under any circumstances. All sales are final.
4. I will store Florinef in a refrigerator or other place where the temperature is maintained within the Recommended Range.
5. PETPHARM assumes no liabilities for my pet's health problems arising from the temperature of Florinef not being maintained within the Recommended Range during shipment and storage.

By signing this document I declare that I understand and abide by all the terms of sale on which Florinef is sold to me.
